"Promoting Young Peoples' Environmental Awareness for Sustainable Development by Traveling and Understanding the Processes of Human-Nature Interaction in the Northern European Region"

Distance Education Secondary School «Riga Commerce School»

**There is only
one way to
learn.
It's through
action.**

/Paulo Coelho/

Project aim and objectives

To promote young peoples' understanding of

- human-nature interactions,
- environmentally friendly behaviour,
- solving problems in changing real life situations,
- improving knowledge, personal and social skills, attitudes,
- making justified decisions for sustainable development that will improve the quality of life now and future generations.

Project implementation

"Promoting Young Peoples' Environmental Awareness for Sustainable Development by Traveling and Understanding the Processes of Human-Nature Interaction in the Northern European Region"

IMPLEMENTED BY:

EXPLORATORY TRIPS

CREATIVE WORKSHOPS

CREATIVE COMPETITIONS

POSTER MAKING

Promoting Environmental Awareness for Sustainable Development at

Distance Education Secondary School
«Riga Commerce School»

We get to know ourselves and the world on exploratory trips and expeditions

We develop creativity in exciting competitions and tasks

We learn by doing

We learn individually and in groups, thinking, evaluating, analysing

We apply knowledge in practice – in museums, craftsmen's workshops, in nature

**A purposeful
learning process
that ensures
good results**

Individual approach,
assessing the needs of each
student

We learn traditions by
celebrating festivals
together

We involve parents in
school projects

Distance education as a model for a healthier / more active lifestyle that ensures stability of employment in the long-term

Exploring the environment and cultures and learning by doing in various school subjects

1 Read the article and answer the questions.

DOLPHIN HURT BY FISHING NET

Last Saturday Elena Anna was out sailing in the sea with her dad. It was a beautiful day and they were having fun. Suddenly they heard a strange sound coming from some rocks next to the sea. Elena's dad sailed a little closer so they could see better. It was a dolphin and it was injured. It couldn't move because of a fishing net around its body. Elena's dad phoned the local

animal protection organisation and they went to help. They looked after the dolphin until it was better and it could return to the sea again. It was a very happy ending! Fishing nets and rubbish such as plastic can be dangerous for sea animals. It's important to keep beaches and the sea clean! Remember to put your rubbish in the bin.

- 1 Where and when was the accident? *Last Saturday at some rocks next to the sea.*
- 2 What animal had the accident? *A dolphin.*
- 3 What happened to the animal? *It was hurt by a fishing net.*
- 4 How did the story end? *It ended happily.*
- 5 What advice does the writer give? *You should keep beaches clean. / You must put rubbish in the bin.*

What is a 12-year-old boy doing to reduce the amount of plastic in our oceans? Watch the video to find out! (*Ko darī 12-gadīgs zēns, lai samazinātu plastmasas daudzumu okeānā? Noskaties video, lai noskaidrotu!*)

NORDPLUS JUNIOR PROJECTS

Natural resources. Trees. Waste paper.

AUTHOR: Ričards Bērziņš

ADVISER: Ina Kovaļeva

NordPlus Junior projects

✓ What are natural resources?

✓ How many trees should be cut to provide one school with paper within one school year?

2. Cik koku būtu jānozāgē, lai apgādātu vienu lielu skolu vienā mācību gadā ar papīru? Iztēlojies, ka mežā saskaiti un apskrien tik daudz kokiem apkārt!

Vajadzētu nocirst 7 kokus.

✓ How long time does it take for a tree to grow?

3. Cik ilgi aug viens koks? Vai tavā ģimenē ir kāds tik vecs cilvēks?

Koks aug 20 līdz 40 gadu.

NordPlus Junior projects

✓ How many trees are saved by 1 ton of waste paper?
